Andreas Herdt  
**CCG Digital Image Technology**  
Lorsbacher Strasse 56a  
D- 65719 Hofheim

Dear Mr. Herdt,

I am very glad I can confirm our full satisfaction with the Definity film recorder from CCG. We have purchased Definity after half a year of careful comparison tests. We have scanned and compared results from other manufacturers (Arri and Celco) and found that Definity is at least as good recorder, if not better, as its competitors. We found Definity as the best option also because of its very competitive price and also since maintenance and eventual repair costs are at very reasonable level.

After more than a year of usage and after recording more than eight feature films we can confirm Definity to be reliable machine with perfect support from its team in case of possible emergency situations.

Therefore we can prove to be first proud owners of this excellent piece of technology in central Europe.

With kind regards
